

# CHAMP: Coordinated Housing Assessment and Match Plan

I am homeless. What is my first step to find housing? Where do I go for an interview and referral?

CHAMP is a way for agencies to coordinate so that everyone in Knoxville who is homeless will have their housing situation assessed and be guided to the program or service that best fits their needs.

## What is CHAMP?

The Coordinated Housing Assessment and Match Plan is the first step in your housing search.

CHAMP is a way for agencies to coordinate so that everyone in Knoxville who is homeless will have their housing situation assessed and be guided to the program or service that best fits their needs.

Once you have completed an intake, you will receive referrals based on your needs.

Please be aware that completing an intake does not guarantee housing and it is possible that you may not be eligible for any programs.

## What happens after I take the intake assessment?

If you are eligible for a program, you will receive a referral.

The program might be at the same agency where you completed your CHAMP intake, but it might be somewhere else.

Once the program you are referred to has an opening, someone from the agency will contact you directly to schedule an intake.

After you have completed the intake and are enrolled in the program, you will work with a case manager to find housing.

### NOTE:

*If your contact information changes after you have your intake, please tell the agency where you completed your CHAMP.*
